Landing Page Leak Audit

Run 24 quick checks on a page people visit but don't buy from, find the three biggest leaks and fix them one at a time.

BUILDER | 45 MIN | PLAYBOOK: LANDING PAGE BRIEF | PLAYBOOK: FOUNDER KPI DASHBOARD

YOU WALK AWAY WITH

Your page checked on a phone, your top three leaks with a fix for each, and a before-and-after number that shows whether each fix worked.

USE IT

Grow track week 3, or any week your Weekly Founder Scorecard shows visits going up while leads stay flat.

People visit. Nobody buys. That's a leak, and more traffic won't fix it. More people on a leaky page just means more people leaving.

Run every check on your phone, not your laptop. Tick what passes. Anything you can't tick is a leak. Then pick your top three and fix one at a time.

Clarity

- [ ] Show the page to a stranger for five seconds, then ask what you sell and who it's for.
- [ ] Make the headline the result customers want, in their words.
- [ ] Make the subhead say who it's for and how it works.

Mobile

- [ ] Open the page on your phone.
- [ ] Check the button shows without scrolling.
- [ ] Check every block reads cleanly, with nothing cut off.
- [ ] Load it on mobile data. If you're waiting, shrink or cut images.

Offer

- [ ] List exactly what they get.
- [ ] Frame the price as the smallest true number, like per week or per session.
- [ ] Offer only a guarantee you can honor every time.
- [ ] Promise only a delivery time you've already tested.

Proof

- [ ] Show only real proof: conversations, photos of real work, pilot results, your story.
- [ ] Delete any number, review or logo you can't back up.
- [ ] Get permission for every customer quote and photo.

> “Trust beats everything else in sales.”
>
> ELI

Objections

- [ ] Pull your top three objections from your Objection Log or your DMs.
- [ ] Answer all three plainly on the page.

Action

- [ ] Use one call to action: one button, one next step.
- [ ] Repeat that same button at the top and the bottom.
- [ ] Tap every button and link on your phone.
- [ ] Complete a real purchase or booking, then refund or cancel it.

Follow-up

- [ ] Check the buyer gets a confirmation message right away.
- [ ] Check you get notified of every sale, booking or form.

Tracking

- [ ] Write down this week's visits and leads from your Weekly Founder Scorecard.
- [ ] Work out visits to leads (leads divided by visits). That's your before number.

> **“How you do one thing is how people perceive you do most things.”**

Top three leaks

Fix broken things first. A dead button or checkout beats every other leak. Then clarity and mobile. Then offer, proof and objections.

Leak	Fix	Date fixed	Visits to leads before / after
e.g. Button said 'Learn more' and went to an About page	Changed it to 'Book my mow', straight to the booking form	[date]	2% / 5%

Change one thing at a time. Fix three leaks at once and you won't know which fix worked.

Next step

Fix your top leak this week. Wait a week. Then compare visits to leads in your Weekly Founder Scorecard. Went up? Keep the fix and move to leak two.

Make today day one.
